"President Wilson has revealed himself as the architect of the world's future," the Daily News said. "The loyalty of the United States to Russia, from which it has nothing to gain, is one of the redeeming episodes of this war. When history is written Wilson will shine like a beacon light in the darkness."

"I did not order the boy to be taken to his home," Dr. Graham said today. "I authorized his removal to another institution and thought he had been taken there. Hudgins is one of several witnesses identified with the organizations who have been called by the Government, all of whom have shown unwillingness to testify, or open hostility to the court. Hudgins was requested to identify the signatures of William F. Van Amburgh and A. Ruth McMillin, his associates, on certain tracts and letters circulated by the associations, and he professed inability to recognize the writing of either, although he had been closely associated with them for many years.

Hudgins, who is employed as a stenographer in his office, was imprisoned last week for unwillingness in giving testimony.

SHIELDS OF POLICEMEN JOINING ARMY RECALLED

Order Includes Also the Badges of Men Now Engaged on Dock Duty Around New York Harbor.

Police Commissioner Enright issued an order today recalling the shields of all members of the Police Department joining the United States forces. It includes also the shields of men who, under the administration of former Police Commissioner Woods, enlisted in the army and are now engaged on dock duty around New York Harbor, but not those of Detectives Martin Owens and Bernard Flood, who are lieutenants in the American Army now fighting on the western front in France. Owens originally left here to drive the ambulance donated to France by the Honor Legion of the New York Police force.

Commissioner Enright gave as his reason for recalling the shields that complaints of petty grafting had reached him, that men about the docks would obtain liquor without pay and then intimidate the saloon keeper by flashing a shield to show they were New York policemen, and that when fights would occur between the water front and a dockman would arrive one of the combatants would show a shield and get away.

LIGHT DIMMING IN NEW YORK APPROVED BY GOVERNMENT

Coney Islanders Protest Long Beach Has Advantage Over Them Because of Order.

Special Deputy Police Commissioner Ryan, by whose order the lights of New York have been dimmed for several days, returned today from Washington and announced that he had found the War Department entirely in accord with his ideas for the defense of New York against possible air raids.

Next Monday, he said, he intends to fly over New York himself in an airplane to observe the effect of the dimming. He will be accompanied by a representative of the War Department.

A committee of Police Island resort managers protested to Police Commissioner Enright today against the bright illumination of Long Beach, holding that it was unfair to keep Coney dark while Long Beach is blazing with electricity. Ashley was indicted simultaneously with Edward M. Groat, whose conviction for perjury for the alleged swearing to a false report as President of the bank was reversed by the Appellate Division, Second Department. Recently the Groat indictment was dismissed, it being stated that the view of the decision of the Appellate Division it was not deemed advisable to retry the case. As the Groat and Ashley indictments were very similar, it was regarded by the District Attorney as a waste of funds to try Ashley.
